And

Thursday, January 5, 2006 - 10:00 a.m.

168 South Los Robles Avenue
Pasadena, CA

NOTICE IS HEREBY GIVEN that the public workshop to be held in Pasadena, CA on December 1, 2005 has been rescheduled for January 5, 2006. The workshop will take place at the same location, the Hilton Pasadena Hotel. Also, the public review period is extended an additional six weeks until January 17, 2006. These changes are being made at the request of interested parties and to avoid scheduling conflicts. The public workshops will be held by the State Water Resources Control Board (State Water Board) to seek comments on proposed revisions of the federal Clean Water Act (CWA) section 303(d) list [section 303(d) list] of water quality limited segments. The State Water Board will not make any decision regarding the section 303(d) list at the workshops. The section 303(d) list will be considered for adoption at a future State Water Board meeting.

Each day of the workshop(s) will focus on the revisions to the section 303(d) list as follows:

December 6, 2005—North Coast, San Francisco Bay, Central Coast, Central Valley, and Lahontan regions

January 5, 2006—Los Angeles, Lahontan, Colorado River Basin, Santa Ana, and San Diego regions

While each workshop is focused on specific proposals, comments on any aspect of the proposed revised statewide section 303(d) list will be accepted at either of the two workshops.

BACKGROUND

Section 303(d) of the CWA requires states to identify waters that do not meet applicable water quality standards with technology-based controls alone. Applicable standards include the designated beneficial uses, the adopted water quality objectives, and the State's antidegradation policy. The section 303(d) list must include the water quality limited segments, associated pollutants, and a priority ranking of the waters for purposes of developing Total Maximum Daily Loads (TMDLs) in the next two years. A TMDL is the maximum load of a pollutant that can be discharged from point and nonpoint sources without exceeding water quality standards. States are required to submit the section 303(d) list and TMDL priorities to the U.S. Environmental Protection Agency (USEPA) for approval. The 2006 section 303(d) list is due to USEPA by April 2006.

DEVELOPMENT OF THE 2006 SECTION 303(d) LIST

State Water Board staff solicited, assembled, and considered all readily available data and information. A public solicitation of data and information from State and federal agencies, and from other interested parties, was begun in April 2004. This public data solicitation was concluded in June 2004. The data received generally covered the period of 2001 to early 2004. Some data were submitted that addressed pre-2002 listings. Data (through March 2005) from the Surface Water Ambient Monitoring Program (SWAMP) were included in the record. Other sources of data and information that became readily available to the State Water Board staff were also included in the administrative record.

All data and information was reviewed using the listing and delisting criteria in the *Water Quality Control Policy for Developing California's Clean Water Act Section 303(d) List* (Listing Policy). The Listing Policy identifies the process by which State Water Board and the Regional Water Quality Control Boards will comply with the listing requirements of CWA Section 303(d).

The Listing Policy became effective in December 2004. The Listing Policy was used to make listing/delisting decisions, which are summarized in fact sheets developed by the State Water Board staff. In general, fact sheets were developed for all waters and pollutants where water quality standards were not attained.

A draft Staff Report (report) has been developed documenting recommendations for additions, deletions, and changes to the 2002 California section 303(d) list. Recommendations are also made for when TMDLs will be completed. The report provides a summary of list changes and the State Water Board staff analysis of data and information. Two additional staff reports were also developed for waters and pollutants where the recommendations were "Do Not List" or "Do Not Delist."

AVAILABILITY OF THE DRAFT STAFF REPORT ON REVISION OF THE SECTION 303(d) LIST

The draft Staff Reports supporting the revision of the section 303(d) list are posted on the State Water Board web site at http://www.waterboards.ca.gov/tmdl/303d_update.html. You may also receive a copy on CD-R of the draft Staff Reports by contacting:
